

Hamburg, the 5<sup>th</sup> of November 2020

Dear Mr. President of the United States of America,

one of the most big problems in modern world is, that we don't understand actions, opinions and point of views of each other. In the bible, God punished Mankind for building the "Tower of Babel" with speaking not only one language anymore. Today's media around the world got you often wrong.

Your presidency must be understood as a necessary turnaround in American foreign policy. For that, you have to be aware of the falcons in your administration, who tried to bring another war to the middle east. At least, your decisions brought peace to middle east countries with Israel and hopefully a new stabilization for the middle east. So, for giving everything you had to the Israeli people, God might thank you forever and I will thank you too. May be, people will see this later the same way.

Your presidency can be classified with a historical similarity to Frederick II, the Holy Roman Emperor. [https://en.wikipedia.org/wiki/Frederick\\_II,\\_Holy\\_Roman\\_Emperor](https://en.wikipedia.org/wiki/Frederick_II,_Holy_Roman_Emperor) . When I began to see this in your presidency, in this new light, I admit that you have fight some powerful narratives in your country. At least, everyone in media and politics says, America is the last superpower, but we now know that this is a kind of "backlash" in Washington and US and European politics, to get things done. America and Europe have huge problems, often the same, and being in the opposite of your presidency means, not to allow, that one man can solve the problems, politicians, armies, think tank and banks brought to our countries. You are not a holy man, for sure, I'm not naive, but you tried something and I think, you can say today "mission accomplished". For sure, you're not done, but people all over the world should understand, why you did some things and why at least half of the Americans vote you again.

From this moment on, we have to think about central bank policy. Many of the problems today are a result of that central banker decisions and they even don't understand at least what money really is. For sure, many journalists know that and wrote this in articles and books, but this won't be heard. Why don't we get a "cash creation tax" and I call it in German a "Giralgeldsteuer". This is a new idea and I tried to made the first steps for bringing knowledge to German people. If we understand, what money politics is and how it can change the world and bring freedom, prosperity and a healthy world to everyone, if we understand, how a blessed money policy can renew Christian and occident values in our countries, it will bring to the world blessing of the king of all nations, Jesus, to Mankind in time. This, for sure, sounds a bit fundamentalistic, but our social problems today should be understood this way, even if science will may difference here and there, the direction to solve them is truly the same.

Nobody can say, that he or she can see the the whole picture, of course, and this leads us to humility. As the Apostel Paulus says: "For we know in part, and we prophesy in part." 1. Korinther 13:9 . Only God knows, even Jesus don't knew, when time for revelation is coming. So for that, we all have to be thankful for our time here on earth, for loving each other and for f o r g i v e n e s s , for celebrating Christmas, also if people lost family members this year or still handling with this disease "Covid-19".

Dear Mr. President, I would prefer, that you will accept the decisions, voters in this election made, at least all Americans still see you in charge to bring trust in their political system, which is the greatest democratic system in the world. May be your supporters accept too, even almost half of the voters supported you and want you "four more years" as their President of the greatest nation in the world.

Yours faithfully,  
J.A.Dennis Gehrmann
